DETAILED ACTION

Status of the Application

Claims 18-21, 35-36 are pending.

Applicant's submission of a declaration by Sergio Pimpinelli in response to the request made under 37 CFR 1.105 by the examiner in the Office action mailed on 6/3/2008 is acknowledged.

Examiner's Amendment

1. This application is in condition for allowance except for the presence of claims 18, 35 directed to an invention non-elected without traverse. Accordingly, claims 18, 35 have been cancelled.
2. Please cancel non-elected claims 18 and 35.

Reasons for Allowance

The following is an Examiner's statement of reasons for allowance. In previous Office actions, the Examiner has indicated that the polynucleotide of SEQ ID NO: 1 as originally presented in Figure 4 (1268 nucleotides) was deemed unpatentable under 35 USC 102(b) in view of the teachings of Pietro Laneve (Purificazione e caratterizzazione di una nuova attivita endoribonucleolitica coinvolta nella biosintesi dei piccolo RNA nucleolari in *X. laevis*, Thesis, 2001; cited in the IDS) as evidenced by GenBank accession number AJ507315 (cited in the IDS). SEQ ID NO: 1 as shown in Figure 4 as originally filed is identical to the sequence disclosed in the Laneve thesis. Applicant traversed this rejection in the response filed on 5/8/2008 by indicating that the Laneve thesis could not be considered proper prior art because the thesis was presented at a University in Italy and that the invention was not patented or described in a printed publication in this country or foreign country, or in public use or on sale in this country, more than a year prior to the date of the application for patent in the United States. Since the Examiner could not find any evidence of record which would lead one to reasonably conclude that the

Art Unit: 1652

Laneve thesis was not publicly available in 2001, two years prior to the filing date of the international application from which the instant application derives, a request under 37 CFR 1.105 was made in the action mailed on 6/3/2008 to clarify the issue of public availability of the Laneve thesis. In response to this request, Applicant has filed on 8/11/2008 a declaration by Professor Sergio Pimpinelli, Director of the Department of Genetics and Molecular Biology, University of Rome "La Sapienza", indicating that the Laneve thesis was orally discussed in 2001 and was never placed in a library or bookshelf or any place for public browsing. In view of this signed declaration, the previous 35 USC 102(b) and 103(a) rejections applied to claims 1-21 and 35 are hereby withdrawn.

Conclusion

3. Claims 19-21 and 35 are allowed.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Delia M. Ramirez whose telephone number is (571) 272-0938. The examiner can normally be reached on Monday-Friday from 8:30 AM to 5:00 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dr. Nashaat Nashed can be reached on (571) 272-0934. Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (571) 272-1600.
